

Community	Project	Estimated Cost	Notes
Alpine	Water and Sewer lines	\$1,800,000	Town of Alpine needs new water lines, engineering is 50% completed. Engineering for the sewer project is 75% complete.
Alpine	Child Development Center	\$100,000	Received CDBG funds but construction costs skyrocketed and unable to complete building and unable to solicit bids in price range.
Cody	Commercial Street and Infrastructure Improvements	\$2,500,000	Improvements include road reconstruction, water and sewer improvements for commercial streets including: 10th St., 11th St., 12th St., Sheridan Ave., Ht. Mtn. St., Belfry Highway
Cody	Industrial Park infrastructure	\$900,000	Water storage tank for North Industrial Business Park.
Crook Co	Old Stoney Community Facility	\$3,200,000	This project has been stalled by inadequate funding for many years. The old High School building in Sundance was acquired by Crook County in the 1980's and has been studied and restudied many times for a variety of uses. Now it is currently under the control of the Crook County Museum District that proposes to turn it into a Community Center and expanded county museum to support enhanced tourism and meet community cultural and recreation needs. The project is under design and could be ready to go quickly if funding were available. It has been stabilized with local money. The price tag is nearly double what could reasonably be provided by State grants such as CFP.
Evanston	Roundhouse	\$3,000,000	Completion of a historic preservation project to be used as a future city administration building.

Community	Project	Estimated Cost	Notes
Evanston	Union Center Infrastructure	\$2,400,000	Evanston would like to extend water, sewer and power to remaining lots in the industrial park of the Union Center. This would allow for commercial/industrial/business development of 27 acres. Engineering complete. Partial funding has been approved for Commerce Drive.
Evanston	West Industrial Park	\$1,600,000	Evanston would like to extend water, sewer and power to approximately 35 +/- acres on the west end of the city for commercial/business Development. Approximate cost \$1.6 m.
Goshen County	Community Facility Completion	\$300,000	Cost overruns on a CFP project.
Hulett	Community Facility-Energy Efficiency	\$1,000,000	Energy efficiency upgrades on a CFP Project
Hyattville	Community Facility-Energy Efficiency	\$300,000	Energy efficiency upgrades on a CFP Project
Kaycee	Flood Protection	\$1,500,000	After the devastating 2002 flood, a system of dikes for flood protection was designed to protect this Johnson County town from future floods. However funding has not been provided to complete the work. This is a high priority project that has been stalled for awhile.
Kemmerer	Emerald Street		Engineering complete on installation of a new water main arterial along Emerald Street. This is the main arterial for the commercial district. Cost two years ago - \$1.6M, estimate a 30% increase to just over \$2M.
Lincoln County	County Road 304	\$5,500,000	County Road #304 provides access to the Naughton Power Plant, the Chevron mine and BTI Trucking company from Highway #189. Engineering complete. Approximate cost \$5.5M.
Lincoln County	Etna and Thayne Community Facilities	\$3,000,000	Conversion of former schools to community facilities. \$1,500,000 each.

Community	Project	Estimated Cost	Notes
Lincoln County	Waterline easements	\$80,000	Cost overruns on a BRC project.
Mills	Community Center	\$300,000	Community facility funding not eligible under CFP or CDBG programs
Moorcroft	Water Supply Line	\$1,500,000	This project has been seeking funding for a number of years. The Town has a good Madison well that is approximately 6 miles out of town. The funding is needed to connect it to the Town's system. They currently lack enough water to handle any new growth. Money would be used to construct the line and obtain associated rights of way. It has been designed and could be put to bid quickly.
Mountain View	Sewer Treatment	\$5,000,000	Town of Mountain View/Bridger Valley. Needs assessment has been completed for new sewer treatment facility. Town of Mountain View at capacity. Needs assessment included potential locations and cost estimates. Approximate cost \$5M.
Rock Springs	Senior Center/Childcare Facility Completion	\$500,000	community/senior center. They received \$3.9M from SLIB (Chapter 20 Emergency Funds) along with local money for a total project of around \$7.8M. The facility is scheduled to be completed in April 2009. The building will have a daycare center in it. The problem is they have had some increases in cost of about \$500,000.
Star Valley Ranch	Water Meters	\$1,600,000	Town of Star Valley Ranch needs to install water meters. Approximate cost \$1.6m.
Thermopolis	Big Horn Basin Discovery Center	\$15,000,000	Hot Springs State Park cultural resources and natural sciences discovery center. (Potential Legislation)
Torrington	Community Facility-Energy Efficiency	\$1,500,000	Cost overruns on CFP project, Lincoln Elementary
Torrington/South	Area water and sewer upgrade	\$2,000,000	Per the City of Torrington Sanitary Sewer Study

Community	Project	Estimated Cost	Notes
Torrington	Industrial Park Road Infrastructure	\$5,453,981	Construction of Industrial Park Avenue and reconstruction of East D Street from Highway 26 on the south to 30th on the north.
Upton	US16 Reconstruction in Downtown	\$1,800,000	State highway project in downtown area
Weston Co.	Buffalo Creek Road Rebuild	\$3,100,000	This project would provide the second access road from the Upton Regional Industrial Site and would provide primary access to State Highway 116 and to the mines in southern Campbell County from the site. The current road is extremely substandard and needs to be brought to industrial road standards to handle heavy volumes of future truck traffic from the site. The County does not have the money to upgrade it and cannot provide the match for a 50% DOT Industrial Roads grant. This could be ready for bid and construction in less than 6 months.
Weston Co.	Multi Events Center/Training Center	\$2,600,000	This project is currently in the developmental design stage and would provide a new facility at the Fairgrounds in Newcastle for local and regional events and workforce training. This is a new facility and appears to not be completely fundable with State grants. Weston County cannot afford to pay for it but can commit limited funding of about \$300,000. A 12,000 square foot facility has been preliminarily designed and could be ready for construction in 6 months or less.
Statewide	Energy Efficiency Upgrades for Gov't Bldgs	\$46,000,000	Teton County estimates \$2M in energy efficiency upgrades for county and municipal buildings. Extrapolating from this one county, one could assume up to \$2 million per county for a total of \$46
	Total	\$113,533,981	

Community	Project	Estimated Cost	Notes
Additional Projects			
Casper	Economic Development Innovation Center	\$5,500,000	A business incubator is a set of programs, services, and facilities that collectively support the successful development and growth of start-up and early stage companies. Business incubators are economic development tools that grow new businesses, create jobs, and diversify and strengthen local economies. The Casper Area Business Innovation Center will graduate 22 new companies and create 455 jobs in five years. (These measures were compiled using data from the National Business Incubator Association and the feasibility study.) The project involves renovating an existing building for ADA and energy efficiency (11,925 sq. ft.), adding an addition (39,465 sq. ft.), furniture, fixtures, and equipment (FF&E), start-up operation costs, and operating subsidies for four years. Total cost is \$10,380,000. The state of Wyoming may be providing \$4,500,000.
Cheyenne	Hynds/Atlas Building/Downtown Redevelopment	\$5,000,000	Infrastructure and building improvements to a fire ravaged downtown block, vacant building and historic theater.
Sweetwater County/Rock Springs-Green River	Connector road between Rock Springs and Green River	\$36,000,000	I-80 is the only paved road between Green River and Rock Springs. Since there is no hospital in Green River, the availability of emergency medical care is subject to I-80 being open for travel. I-80 is closed periodically due to weather and accidents which could make it challenging for residents of Green River to access medical care should an emergency arise. In addition to providing a secondary access to medical care, a new road between the two cities would also provide development potential for Green River and Sweetwater County.
Additional Projects Total		\$46,500,000
